

January 6, 2012

Dear Valued Customer,

Flexi-Van's FlexiDay<sup>®</sup> Program, which offers daily and monthly units at our service center and third party FlexiDay<sup>®</sup> locations, provides the intermodal industry with access to chassis and supports an efficient approach to chassis provisioning.

Flexi-Van prides itself in compliance and M&R cost controls, however, we have experienced an increase in costs associated with providing this service to our customers as an Intermodal Chassis Provider. While we continue our pursuit of removing cost from the supply chain, we have no alternative but to increase the Daily usage rate in the FlexiDay<sup>®</sup> Program.

This rate change becomes effective with any unit picked up commencing February 1<sup>st</sup>. All current customers will be provided with an amended rate agreement and additional notice will be provided on the Flexi-Van website. Invoicing will be updated in accordance with this rate adjustment beginning with the February 2012 billing cycle.

Thank you for your understanding and we look forward to continuing our relationship with our valued customers in the FlexiDay<sup>®</sup> Program.

Sincerely yours,  
Flexi-Van Leasing Inc.
